WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/US94/20075

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims <u>NONE</u>	YES
	Claims <u>1-25</u>	NO
Inventive step (IS)	Claims <u>NONE</u>	YES
	Claims <u>1-25</u>	NO
Industrial applicability (IA)	Claims <u>1-25</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and explanations:

Claims 1-25 lack novelty under PCT Article 33(2) as being anticipated by Bailey et al. Bailey et al. disclose a system to rank search terms used in a network-based commerce system including a plurality of listings arranged in divisions, the system including: a frequently used search term retrieval module to retrieve frequently used search terms from a first memory location of the network-based commerce system; a determination module to determine a number of listings in each division associated with each frequently used search term; and, a ranking module to rank each frequently used search term based on the number of listings in each division (see, in particular, Figure 15E and ¶ 124).

Claims 1-25 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
